SODA ASH AND SODIUM SULFATE IN MARCH 1997

Natural soda ash production in March was 912,000 metric tons, 19% higher than the previous month's production, according to the U.S. Geological Survey. Ending inventories were estimated at 296,000 tons, an 8% increase from that of the preceding month. Wyoming trona production in March was 1,530,000 tons. Total production of chemical caustic soda as

The cumulative soda ash statistics through February 1997, compared with those of the corresponding period in 1996, were as follows: production 3% higher, imports 17% higher, exports

soda ash equivalent, based on data from all three producers, was 19,100 tons in March.

Apparent consumption of soda ash for February was 507,000 tons, 9% higher than the February 1996 level of 465,000 tons. Exports and imports of soda ash in February 1997 were 319,000 tons and 9,280 tons, respectively.

5% lower, ending stocks 16% higher, and apparent consumption 11% higher.

COSPONSORS:

- UNITED STATES GEOLOGICAL SURVEY
- UNITED STATES BUREAU OF LAND MANAGEMENT
- WYOMING GEOLOGICAL SURVEY

1ST INTERNATIONAL SODA ASH CONFERENCE

To commemorate the 50th anniversary of the beginning of the Wyoming natural soda ash industry, the U.S. Geological Survey, the U.S. Bureau of Land Management, and the Wyoming Geological Survey, are sponsoring a three-day international conference on soda ash to be held at the Western Wyoming Community College in Rock Springs, WY, on June 10 to 12, 1997. The meeting will include two days of formal presentations and poster sessions by some of the world's leading experts in the soda ash industry followed by a third day of field trips to see the trona mines, soda ash refineries, and local outcrops of the Green River Formation. Accommodations will be at the Holiday Inn in Rock Springs, where registration begins Monday, June 9. The conference is wide-ranging in scope covering several categories, including geology, mining, processing, markets, and environmental issues. Although the Wyoming trona district will be emphasized, papers on natural deposits elsewhere in the world are included. The speakers and titles of the papers to be presented are:

- D. Kostick, U.S. Geological Survey, *History of the U.S. Soda Ash Industry*
T. Leigh, Tg Soda Ash, Inc., *Overview of the Geology of the Wyoming Trona Deposits*
J. Dyni, U.S. Geological Survey, *Exploration for Sodium Carbonate Deposits*

Field Trips

- Trip 1: Underground tour of trona mine(s), Field trip leader Terry Leigh, Tg Soda Ash, Inc.
Trip 2: Surface tour of a soda ash refinery(s)
Trip 3: Outcrops of trona-bearing rocks of the Green River Formation, Bill Culbertson, U.S. Geological Survey
Additional papers and poster sessions will be announced in upcoming announcements. (This revision 5/19/97)

1st International Soda Ash Conference

Theme: Utilization of natural resources of sodium carbonate into the 21st century

June 10-12, 1997, Western Wyoming Community College - Rock Springs, Wyoming

Sponsored by:

U. S. Geological Survey, U. S. Bureau of Land Management, Wyoming State Geological Survey

Coordinated by: University of Wyoming Office of Conferences and Institutes

A significant part of the expanding world market for soda ash comes from the trona district in southwestern Wyoming in the Western United States. Five mines in the district produce as much as 16.5 million metric tons of trona per year from underground mines reached by vertical shafts at depths ranging from 250 to 500 meters below the surface. About nine million tons of soda ash are produced yearly of which about one-third is exported to other countries.

The First International Soda Ash Conference (ISAC) sponsored by the U. S. Geological Survey, the Bureau of Land Management, and the Wyoming State Geological Survey is being held at Rock Springs, Wyoming, June 10-12, 1997 close to the trona district. The broadly based conference will include some of the world's leading experts of the soda ash industry who will be presenting papers on the geology, mining, processing, transportation, and marketing of sodium carbonate deposits. Although the Wyoming trona district will be emphasized, papers on natural deposits of sodium carbonate elsewhere in the world are included.

Two days of papers and poster sessions are planned, followed by a third day of field trips, including visits to a soda ash processing plant and underground workings at one of the trona mines, and a geology excursion to examine nearby outcrops of the trona-bearing rocks of the Green River Formation.

General Information

- ***What:*** First International Soda Ash Conference
- ***When:*** June 10-12, 1997;
Arrival and Registration: Mon, June 9, 1800-2100 hours at the *Holiday Inn*, 1675 Sunset Dr., Rock Springs, WY.
Reception: 1900-2200 hours at the *Holiday Inn*.

- ***Where:*** Western Wyoming Community College, Lecture Hall 1302 (all paper presentations and posters)

- ***Publication:*** The Wyoming Geological Survey will publish the conference papers in an ISAC Proceedings Volume which will be priced later.

- ***Conference Registration:*** Please register before May 15, 1997: Registration fee on/before May 15-\$150; after May 15 add \$50. The registration fee includes meeting, Tuesday evening banquet at the Holiday Inn on June 10, two lunches and breaks.

- ***Cancellation Policy:*** Cancellations received in writing on/before June 5, 1997 will be assessed a \$50 administrative fee. *There will be no refunds for cancellations received after June 5, 1997.*

- ***Fields Trips:*** Field trips will run concurrently, so please indicate your choice of trip on the registration form. (Each trip will leave the Holiday Inn at 0830 and return about 1530 hours. A minimum of 12 persons is required for each trip, otherwise, the trip may be canceled.)

Trip 1. Visit to the underground workings at one of the trona mines.

Trip 2. Visit to the soda ash processing plant at one of the trona mines.

Trip 3. Outcrop of trona-bearing rocks of the Green River Formation. Participants will examine rocks of the Wilkins Peak Member on the east side of the Green River basin.

- ***Accommodations:***

Western Wyoming College: \$20-Single; \$10/person-Double (Rates are per night. Add \$3.50/person for linens and towels if needed. See registration form.)

Holiday Inn: A block of rooms has been reserved for the special conference rate of \$50/night for single or double room. Call (307)382-9200 by May 15 to make your reservations. Be sure to mention the ISAC/Trona conference.
